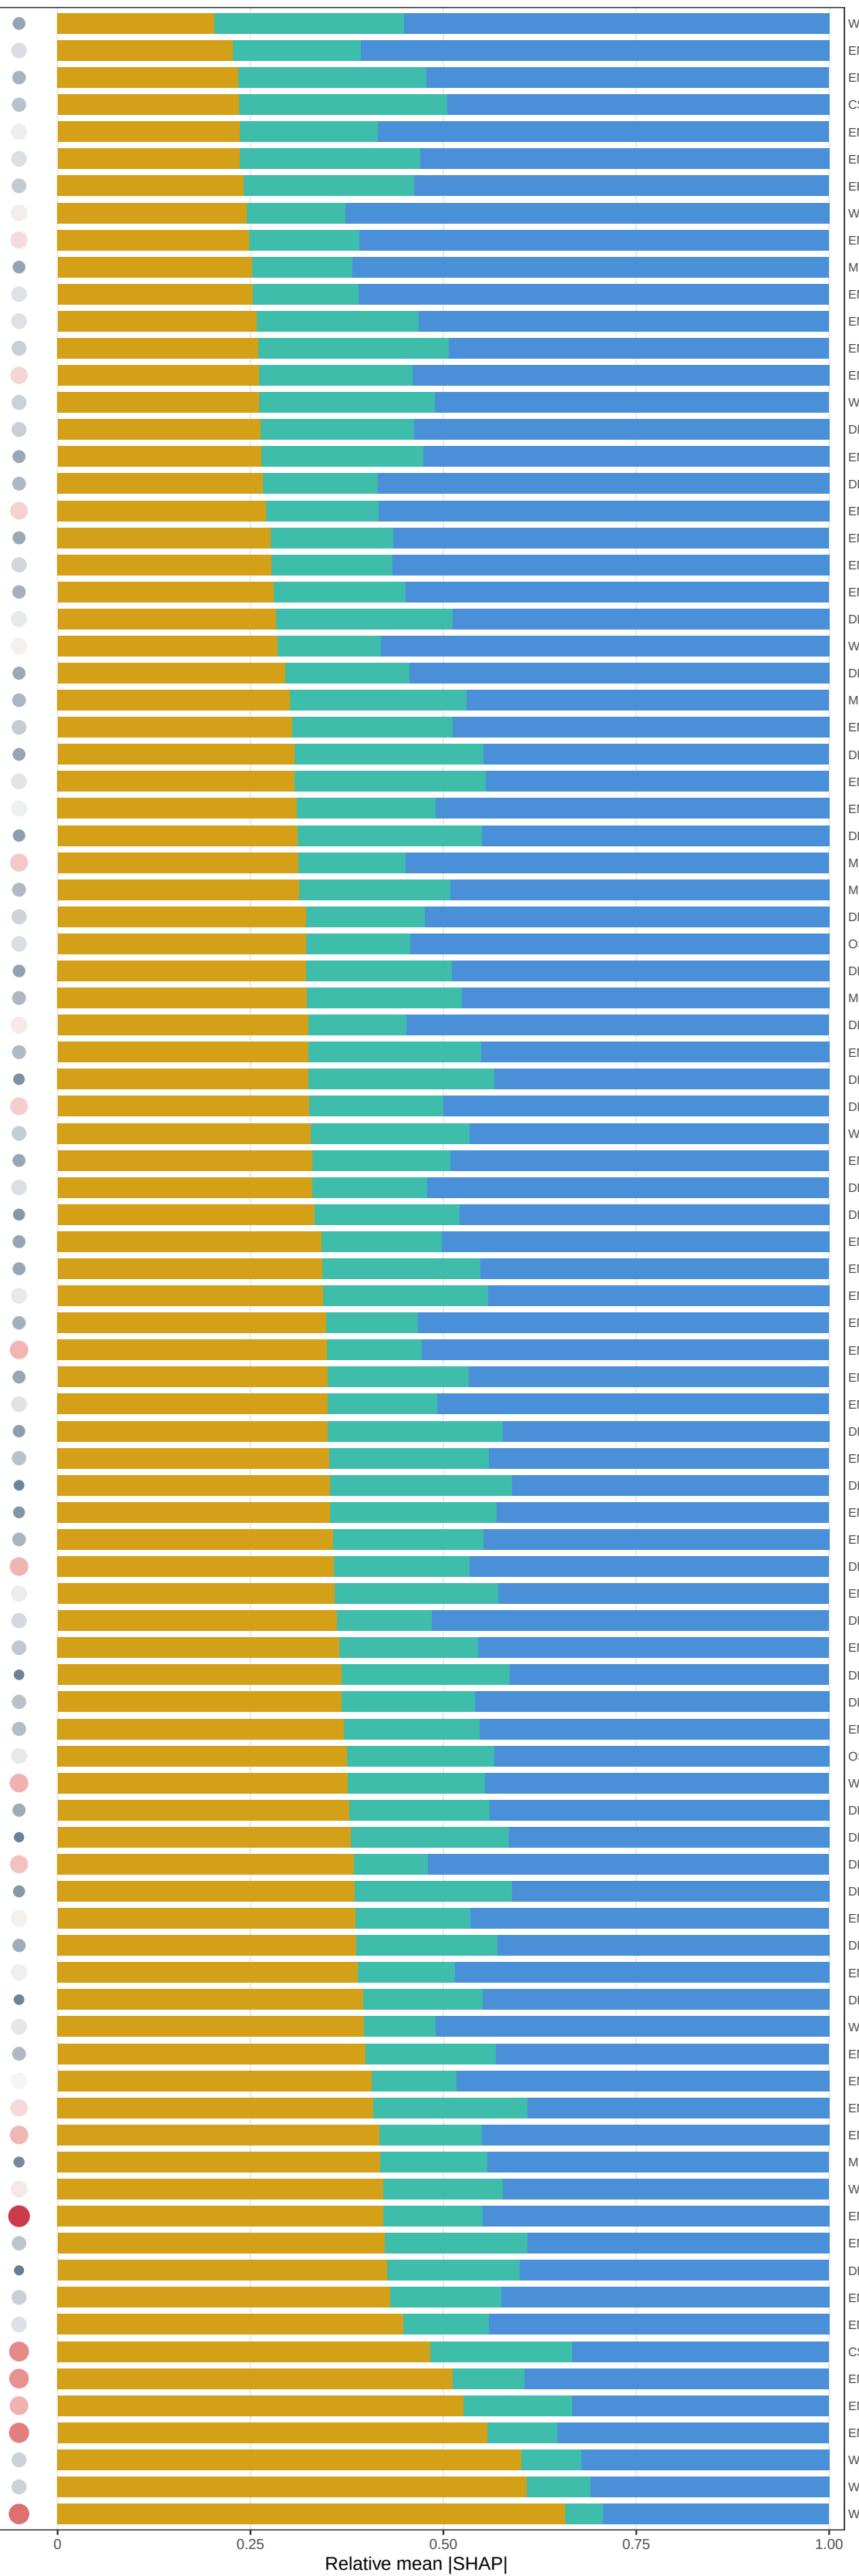

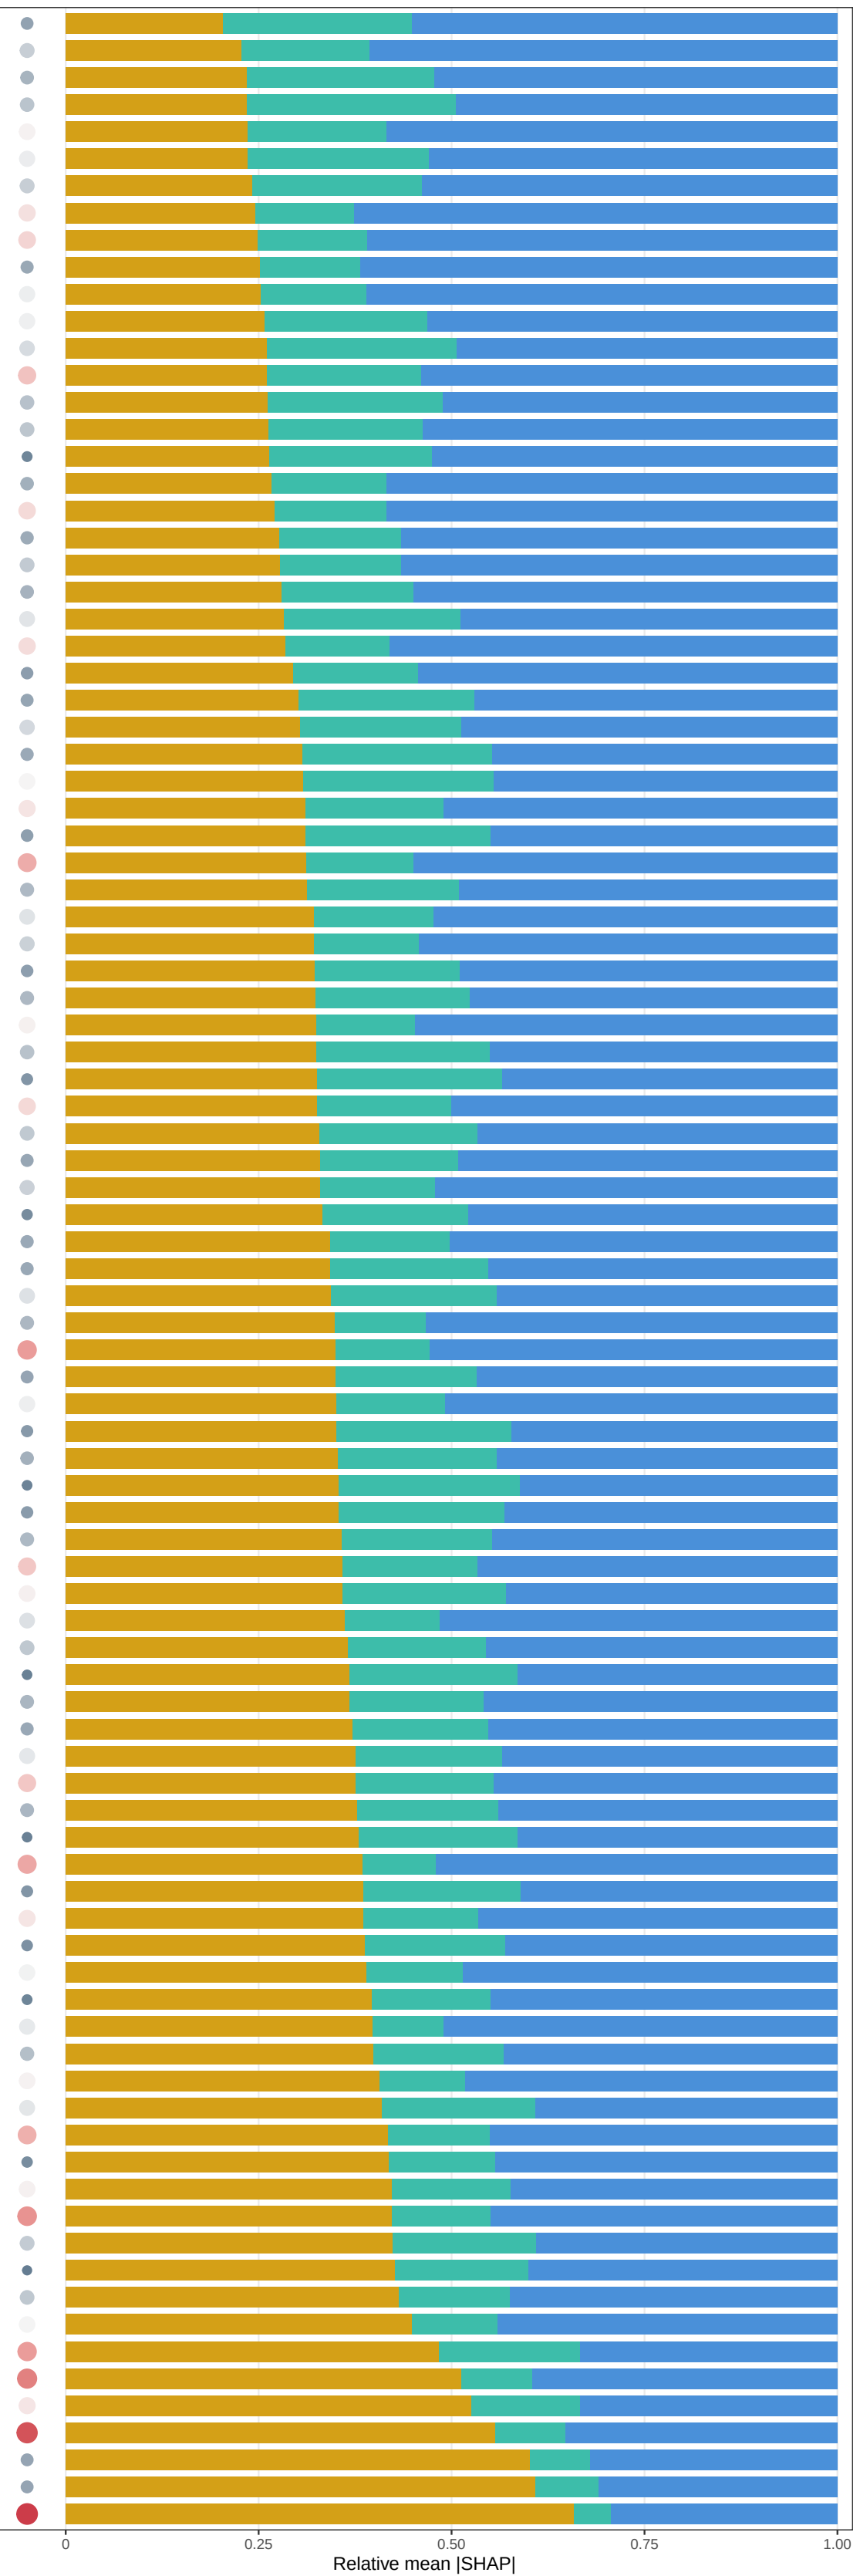

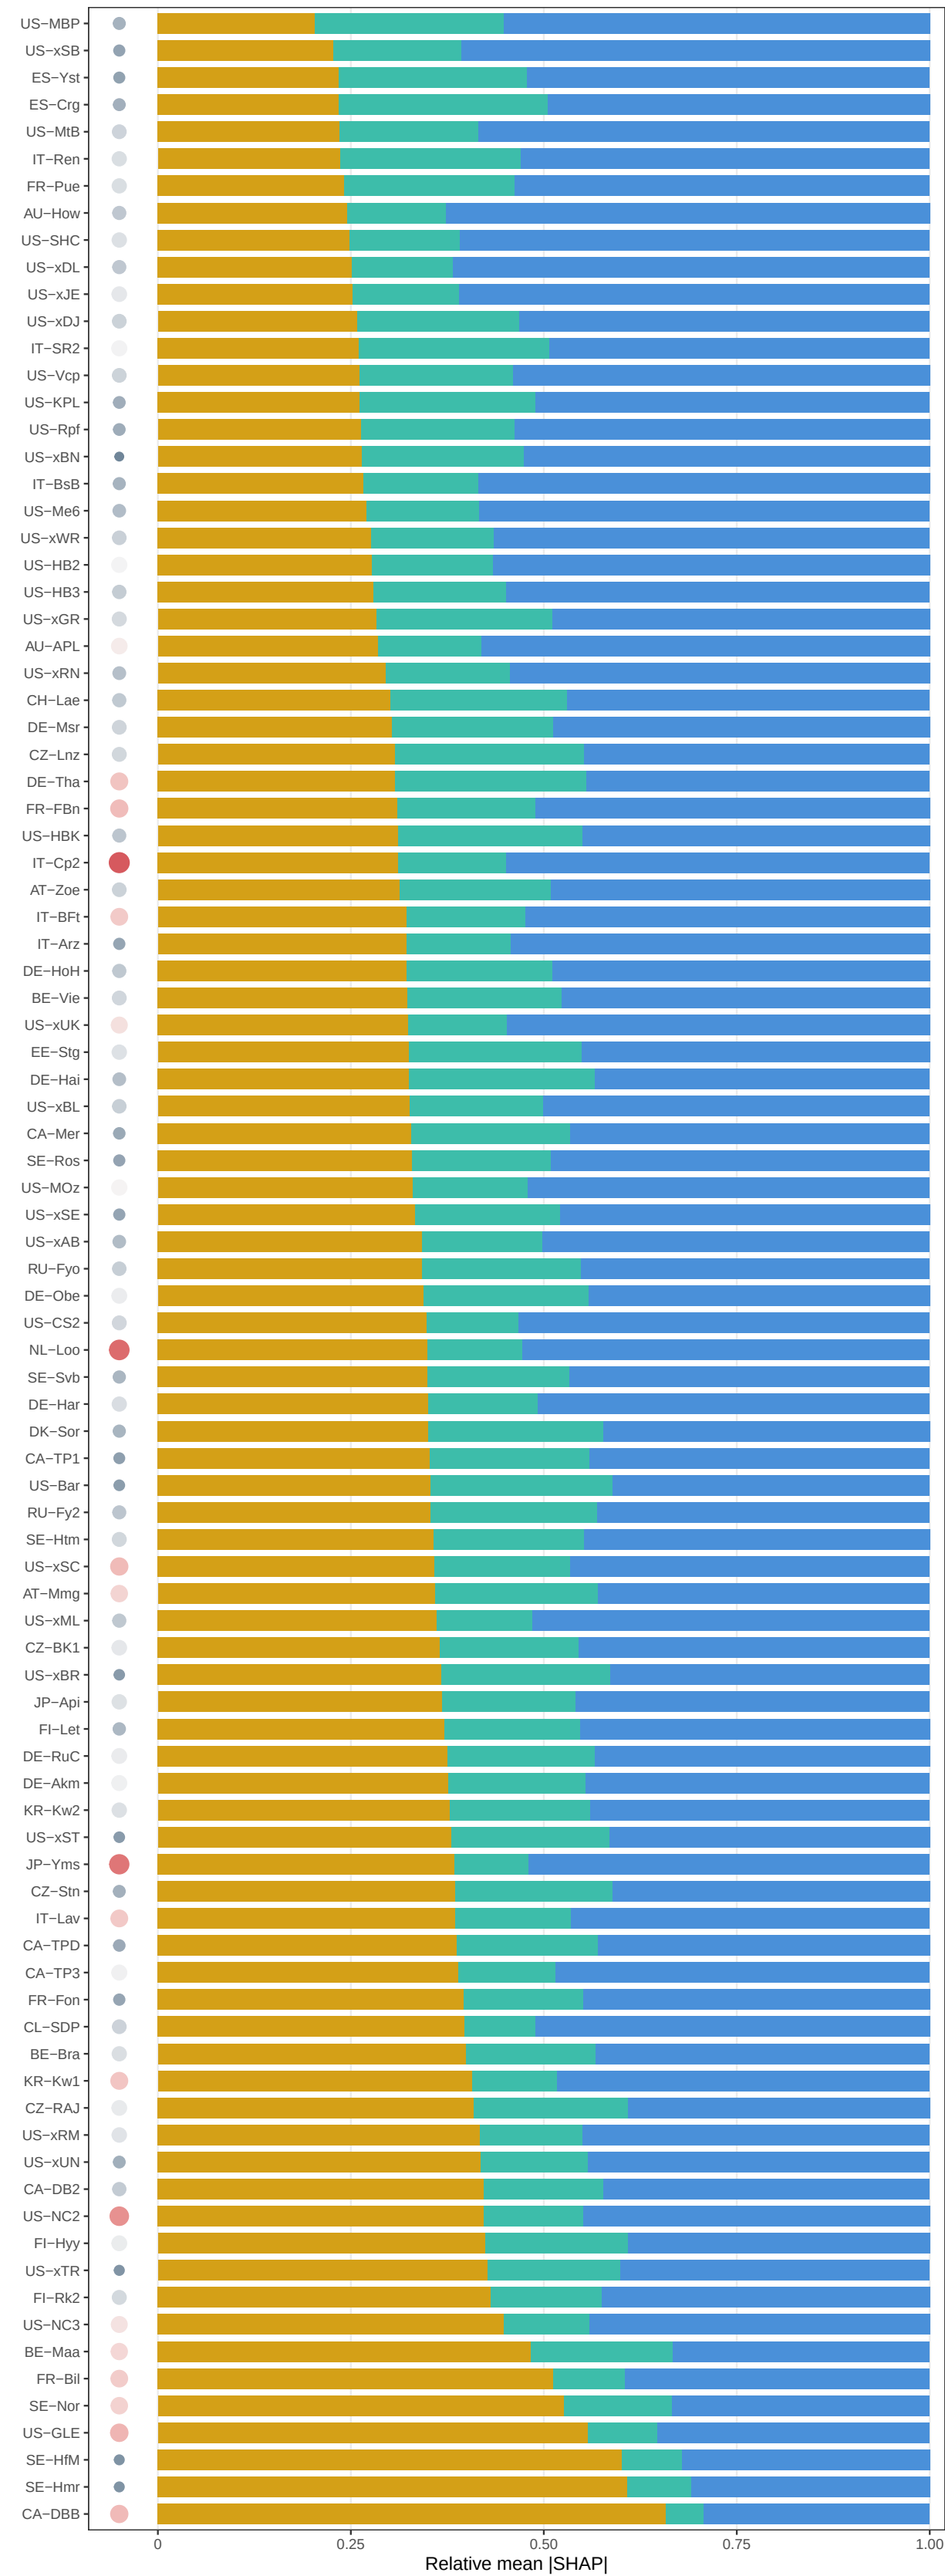

Figure 1 displays a 3x3 grid of heatmaps illustrating the relationship between Driver group (Climate, Traits, Disturbance) and IGBP (IGBP, Relative Mortality, Relative Disturbance). The color scale represents Absolute Mortality (500m, %) and Relative Mortality (%), ranging from 0 (blue) to 40 (red). The heatmaps show that the relationship between Driver group and IGBP is strongest for Climate and Traits, and weakest for Disturbance.
